## HOW TO Log Reading Minutes

After initial setup has been completed, students should use the following directions to log minutes on a daily or weekly basis:

1. Go to **[scholastic.com/summer](http://scholastic.com/summer)**
2. In the KIDS section, click on **GO NOW »**. Enter your screen name and password in the pop-up box. This takes you right to your personal home page to log minutes.
3. After logging your minutes, you should see a "Your minutes were successfully logged" message. There is an optional choice to enter a sweepstakes – this option does require some additional information. To just log minutes, choose **NO** when viewing this message.
